

Rob, a Colorado native, and his wife Jeannie have lived in the Tri-Lakes area since 2006. Rob, recently retired, started his career as a Mechanical Engineer, progressed through the Program Management discipline, and was Director of several Program Management Offices for Ingersoll Rand. He has most recently held Vice President positions in Operations, Engineering and Procurement in the automotive racing and automotive accessories businesses.

Rob has been an active non-profit project manager and team member in various efforts and organizations for the last 15 years. Rob is focused on assisting the Tri-Lakes community in any and all manners possible, recognizing the great gifts he and his family have been given, and the responsibility to share them. In their free time, Rob and Jeannie enjoy 4-wheeling the mountain trails of Colorado, camping and closed circuit road racing with the National Auto Sport Association.
