

Pam, a Tri Lakes resident for the past 25 years, is a registered nurse through Penrose St. Francis, and has been a medical volunteer at Tri-Lakes Cares since 2008. She attempted to retire in 2015, but still does work at Infectious Disease specialists on an as-needed basis. Her volunteer experience allows her to see on a first hand basis the difference that Tri-Lakes Cares makes in the lives of the people who seek help. Now that she is (mostly) retired, she would like to further serve the organization as a Board member.

Pam enjoys hiking, reading, Broncos football and visiting with family and friends. She and her husband, Lee, recently purchased an RV and plan on hitting the road with their yellow lab, Tanner.
