

Julie has called Colorado home since 2005. She has been involved as a volunteer with programs to support Tri Lakes Cares such as Harvest of Love and the oil change program. Between her great passion to help and serve others as well as having twenty years of experience in financial work her expertise and drive will greatly assist the Development Department. She has her Bachelor's degree in Psychology. She is greatly moved by having the honor to work in an organization that is supporting and uplifting the needs of her community.

Julie is originally from Southern California. She is a mother of three grown children. She lives with her husband and youngest son on their ranch in Black Forest along with their five dogs. Her hobbies are gardening, hiking, women's ministries, concerts and the constant pursuit of learning new skills. Her favorite past time is to socialize with family and friends.
