

Tammie, a stay at home mom of three busy children, grew up in Ohio where she also met her husband, Sean. A career opportunity for her husband relocated their family to West Palm Beach, FL for several years. After landing in Monument in 2013, she began volunteering in Lewis-Palmer school district by serving as PTO fundraising chair for her children's elementary school and as a member on both Building and District Accountability and Advisory Boards. Tammie also regularly participates on multiple volunteer committees in the district.

Tammie began her career in electronic banking for a national financial institution in Ohio. After moving into the deregulated energy sector for an Ohio based natural gas company, she accepted an opportunity in the newly deregulated electricity market in Chicago. This position allowed her to focus on national account management, integrated information, and payment management solutions. Tammie and Sean also owned a small health & wellness business for a decade.

Tammie looks forward to serving on the Tri-Lakes Cares board. She is passionate about creating opportunities through relationships and advocates for helping others, especially by making a positive difference in the lives of our youth.
