

**Your Support - As A Donor, A Volunteer, Or Community Partner -  
Is Making A Difference In Someone's Life Every Day!**

This recent thank you received by one of our Case Managers illustrates this:

Thank you is just not enough to explain our deep gratitude. We were both already overwhelmed with the love and care that Tri-Lakes Cares provides to so many families in need via groceries. My husband literally had to pull off on 2nd Street, reach over to grab my hand and began to weep. We sat there together for a good 20 minutes thanking God for this blessing as tears steamed down both our faces. We truly were afraid of how we would provide for our family this next month.

When we got home, our children rushed down to help bring in the groceries. We were all so excited with the variety of produce, breads, meats, and sweets. It was like Christmas! Our kids were so happy for the little things that they normally don't consider like the cost of shavers, hygiene products, shampoo, and body wash. These are luxuries, when a family must choose between grocery or bills. They are acutely aware of our circumstance and were so extremely grateful and excited for new toothbrushes, hair conditioner, and cookies. Things their friends in this community may never think about.

Thank you. A thousand times, thank you to Tri-Lakes Cares and the people who work, volunteer, and donate to this program. You are CHAMPIONS! You bless people every day more than you may ever know with groceries, with finances, with leadership and kindness. Well done!! You are changing families lives for the better everyday. I cannot truly express my gratitude with a simple Thank you. It's just not enough. God bless you in everything each of you do for this community and for our family directly.
