

Don't need your State income tax refund? Support TLC!

ReFUND CO gives you the opportunity to directly support us by donating your state income tax refund to Tri-Lakes Cares.

Here's how to do it:

Upon completing your state income tax form, if you have determined that you will be getting a refund, you can use the "Voluntary Contributions" schedule to choose Tri-Lakes Cares. Look for the "Donate to a Colorado Nonprofit Fund" on that schedule and insert the following information:

- (1) *Our Name:* Tri-Lakes Cares
- (2) *Our Secretary of State's CCSA Registration Number:* 20033003423 (this is not the same as our EIN number)
- (3) *The Amount:* This can be your full refund or a portion thereof.

Important information

Different tax filing software programs (like TurboTax) will display prompts for tax filers getting a refund in different ways and you will have to look for "Donate to a Colorado Fund." If you are using a tax preparer like H&R Block, a CPA or accountant, you will need to let them know to include the information listed above.

You can only designate one write-in nonprofit – so naturally, we are grateful when you write in Tri-Lakes Cares!

You can donate all or a part of your refund, but you can only donate up to the amount of your refund.

This is a completely voluntary program.

After tax filing season is over, we will receive a check from the State of Colorado with the total amount donated. We will not know who made those donations, as state law makes individual taxpayer information confidential and prohibits the Department of Revenue from releasing any individual information. So, unless you tell us that you used ReFUND Co to make a donation, we will have no idea.

The information provided here is not intended as legal or financial advice. As you review this opportunity, we encourage you to consult with your own advisers and professionals.
